

Supported Independent Living

Our SIL Model

- All homes are 100% owned by HCG and not acquired rentals ensuring stable, long term accommodation
- Brand new dwellings furnished with high quality furniture
- All staff are trained and inducted by HCG. We do not use any subcontractor model staffing
- Repetition and consistency is key. All staff in our homes work a roster where they attend the same day, same time, every week. This creates a capacity building environment.
- Each home has an allocated Team Leader and House Manager available. This provides open lines of communication for residents, family, visitors and stakeholders.
- All HCG staff are regularly supervised and provided with ongoing training, guidance and support.

About Us

Hunter Care Group specialise in providing Mental Health & Disability Support Services. We ensure reliability, repetition and consistency in our service delivery, creating a capacity building environment.

We are proud of our contributions to our community, constantly developing innovative service delivery that adapts to the changing NDIS landscape.

We aren't your average service provider!

We have developed a range of quality assurance platforms such as our Case Management and Key Worker Platform.

These platforms ensure you have open lines of communication, immediate service delivery and minimal service interruption.

Support Workers

We provide 1:1 supports for participants with an active NDIS plan. This funding can be utilised for a Support Worker to assist you in a range of areas such as:

- Assisting with daily self-care
- Assistance to access the community
- Support with developing independent living skills
- Developmental life skills
- Education and vocational skills development
- Budgeting and financial mentoring
- Travel training
- Meal planning and preparation
- Capacity building
- Support with attending appointments

Coordination of Supports

We provide three lines of support under the Coordination of Supports Category

- Psychosocial Recovery Coach
- Support Coordination
- Specialist Support Coordination

Our team of Coordinators and Psychosocial Recovery Coaches work in our communities innovately and efficiently. Communication is our focus. The Coordination teams are structured in a way that your allocated Coordinator will be contactable on a daily basis and ready to support you with any of your needs and goals.

Our teams are capped at managing a certain number of participants, ensuring the best quality supports are delivered to you.
